## Synopsis :

From the Back Cover The updated edition of the comprehensive rulebook to the specifier's craft This Fifth Edition of Construction Specifications Writing: Principles and Practices is a major update and expansion of the foremost textbook on construction specifications. It is a comprehensive, practical, and professional guide to understanding the purposes and processes for preparation of construction specifications. This new edition reflects current practices in writing construction specifications according to the well-established principles and requirements of major professional associations, including the American Institute of Architects (AIA), the Engineers Joint Contract Documents Committee (EJCDC), and the Construction Specifications Institute (CSI). Examples of real-world construction specifications and industry-standard construction contract documents are generously provided along with guidelines for correct terminology, product selection, organization of specifications according to recognized CSI formats, and practical techniques for document production. Construction Specifications Writing: Principles and Practices is an insightful textbook for students and professionals in development and continuing education classes, as well as a reliable reference for practicing architects and engineers. --This text refers to an out of print or unavailable edition of this title. Read more About the Author Harold J. Rosen, PD, Hon. CSI, CCS, is retired after an illustrious career as a construction specifications writer, which includes serving as a chief of specification for the New York office of Skidmore, Owings & Merrill and as an independent specifications writer. He was awarded the highest honor by the Construction Specifications Institute (CSI) by being named an Honorary Member in recognition for his many decades of pioneering work on formats and practices for construction specifications writing. Robert S. Weygant, CSI, CDT, SCIP, is owner of Sumex Design, a BIM consulting and development firm located in New Hampshire. He is focused on development of BIM components for manufactured products and systems while promoting the use of new interoperability standards, the integral link between BIM and construction documentation. He has been the national chair of the BIM Practice Group for CSI and a member of the Institute Technical Committee. Mark Kalin, FAIA, FCSI, CCS, SCIP, LEED AP, is President of Kalin Associates, an independent specification consulting firm in the Boston area. He has been the national chair of the Sustainable Facilities Practice Group of the CSI and president of Specifications Consultants in Independent Practice (SCIP). For the AIA, Mark has served as chair of the MasterSpec Review Committee, and the Specifications Professional Interest Area. For CSI, he has been president of the Boston Chapter and now serves on the national CSI Technical Committee. He has also taught a course on specifications writing at Harvard University's Graduate School of Design. John R. Regener Jr., SAIA, CCS, CCCA, CSI, SCIP, is an architect and independent specifications writer in Irvine, California, with thirty-five years of experience in producing and applying construction contract documents for commercial, industrial, institutional, and residential projects. Active in CSI education programs and leadership, he is a national leader in SCIP. Read more
