Synopsis :

Amazon.com Review We all come into this world with 'Sacred Contracts,' according to bestselling author Caroline Myss. Some know it as a calling. Some see it as a life mission. 'In short, a Sacred Contract is an agreement your soul makes before you are born,' Myss explains. 'You promise to do certain things for yourself, for others, and for divine purposes. Part of the Contract requires that you discover what you are meant to do.' Herein lies the rub. Decoding our Sacred Contract requires us to become fluent in the language of symbols and archetypes so that we can interpret dreams, understand the meaning behind 'coincidences,' and learn to follow our intuition. This is why Myss (The Anatomy of the Spirit) offers an extensive lesson on helping readers recognize their personal archetypes (we have about 12 of them), such as the Avenger (righteous activists), Networker (journalists, messengers), or Prostitute (someone who 'sells out' easily). Myss then goes on to help readers create their own 'Chart of Origin' (which profiles your 'spiritual DNA'), using the teachings of the chakras and astrology. Part science, part ancient tradition, part magic, this book will gratify readers who are prepared to study the fine print of their Sacred Contracts. --Gail Hudson Read more From Publishers Weekly As incongruous as it may seem at first glance to her legions of fans, Myss, a popular intuitive healer and teacher, and the bestselling author of Anatomy of the Spirit, thinks it makes perfect sense to describe her approach to spirituality as that of an archetypal 'Saboteur.' After all, it takes a thief to catch a thief, she explains in her latest work. In her workshops and readings, she goes 'on a search and destroy mission to find my students' spiritual panic.... Deep in the unconscious, our spiritual potential lies in wait for us to release it. Sometimes you will have to blow things out of your own way to get to it.' Here, Myss offers her readers a new system for blowing away pedestrian notions of their purpose on the planet. She espouses the ancient notion that our souls enter into a kind of contract before birth that we agree to have various human experiences and even (in Myss's version) to encounter certain people in order to learn lessons. The author includes a technique for arriving at 12 archetypes that rule different areas of our life from career to sex to our highest aspirations. While each of us is controlled in different ways by four 'survival' archetypes Child, Victim, Prostitute, Saboteur the other archetypes that flavor our relations to the world are up to us and as richly different as Vampire and Messiah. One value of Myss's ingenious system is that, like the I Ching, it teaches readers to use symbols not as one-dimensional descriptions but as a call to reflection and imagination and a means to see ourselves in a greater light. 18-city author tour.
